EM and CM, with mathematics B and physics
Cum laude, with the highest grade (10) for mathematics.

WORK EXPERIENCE

StudentVoorStudent   *January 2020 - Present*
Tutor
I have been tutoring since high school. I like teaching students complex material in the field of mathematics, physics or economics. The complexity level ranges from high school freshmen to university undergraduates.

Vrije Universiteit   *June 2019*
Teaching Assistant
The course was called Project Big Data. The students learned how to use python for analyzing relatively small datasets. I helped the students in the tutorials with their assignments and graded them as well.

VOLUNTEERING

Zeilschool Aalsmeer   *May 2015 - Present*
Instructor
I am a sailing-instructor (level i-3) for children between 4 and 10 years old who learn sailing in sailboats called "optimist". We were trained to give and receive feedback using the Pendleton method. Most of our work takes place in the summer in which we work in a team of 7 instructors. This year I am contributing to the education of the new instructors.

Homecare   *December 2018 - Present*
Caretaker
I help a multiple disabled man of 24 years old in the household and with light nursing duties. References are available on request.

TECHNICAL STRENGTHS

Programming	Python, R, SQL
Languages	Dutch, English (CAE level C), French (Delf B1), German (Goethe B2)
Finance	Elementary Accounting Certificate for small businesses
Health	CPR provider certificate

PERSONAL TRAITS

Highly motivated, hard worker and precise.

Volleyball and sailing.
